Chasing Krish Consulting

This Testimonial is to Zahid Shaikh

Its been more than a year ago that we had A to Z Pest Control take charge of the Pest Issues at my home and Office.

One of the most common issues that a home in Mumbai has are cockroaches. These pests are one of the most resilient in the World and are rumored to sustain Nuclear Blasts (yes I Googled it too!!)

And today after a year , we have not seen a single cockroach either at home nor at the office .

With his team of diligent and dedicated staff, he ensured that our Pest Control was done timely and with the Least Botheration.

Thank you Zahidbhai for being the "Pest Buster" in our lives!!

Regards
